Juin Piyada

Software Developer & Backend Developer

+91 8240345541 — juinpiyada1@gmail.com — Kolkata, West Bengal, India

CAREER OBJECTIVE

Seeking a long-term opportunity as a Software and Backend Developer to build scalable web applications, REST APIs, backend services, and database-driven systems. Eager to apply my experience with Node.js, React.js, PHP, PostgreSQL, and MySQL, take ownership of challenging projects, learn new technologies and continue developing with responsible AI into a dependable software professional.

EXPERIENCE

KhanaOS May 2026 – Present

Backend Developer *Kolkata, India*

- Develop Node.js REST APIs and backend services using Prisma and PostgreSQL.
- Design database schemas, business logic, API integrations, and backend workflows.
- Perform API testing, debugging, error handling, optimization, and production support.
- Use AI-assisted and agentic workflows for coding, testing, debugging, and code analysis.

Aimtech Dynamics Jun 2025 – Present

Full Stack Developer *Kolkata, India*

- Develop web applications using React.js, Node.js, PHP, PostgreSQL, and MySQL.
- Build REST APIs, database solutions, responsive UI, and frontend-backend integrations.
- Implement application workflows, UI/UX, database design, and system integration.
- Perform functional, API, integration, and performance testing with production debugging.
- Apply AI-assisted and agentic coding for implementation, testing, documentation, and analysis.

TECHNICAL SKILLS

Languages	JavaScript, PHP, Python, C, SQL, HTML5, CSS3
Frontend	React.js, Vite, Responsive Web Design, UI/UX
Backend	Node.js, Express.js, REST APIs, PHP API Development, API Integration
Database	PostgreSQL, MySQL, SQL, Database Design, Schema Design
AI / Agentic	AI-Assisted Development, AI Agents, Agentic Coding, LLM Integration, Prompt Engineering, AI Workflows
Testing	API Testing, Functional Testing, Integration Testing, Performance Testing, Debugging, Error Handling
Architecture	System Design, Software Architecture, Database Architecture, Responsive Design
Tools	Prisma, Git, GitHub, WordPress, VS Code

PROJECTS

CampusOne – School Management ERP Full Stack ERP Application

- Developed a full-stack school ERP using React.js, Node.js, Express.js, and PostgreSQL with role-based workflows, REST APIs, database management, responsive UI, testing, and system integration.

Helping Learn – LMS Full Stack Web Application

- Developed an e-learning platform with responsive UI, backend services, REST APIs, database integration, application workflows, testing, and debugging.

Diamond Pest Control Full Stack Application

- Built a business management system using React, Flutter, PHP APIs, and MySQL with frontend, mobile, backend, database integration, testing, and production support.

EDUCATION

Bachelor of Computer Applications (BCA) Aug 2022 – Jul 2025

Swami Vivekananda Institute of Modern Science, Kolkata

CERTIFICATIONS

AWS – DevOps Engineer Learning Plan — Coursera – WordPress Website Development — NVIDIA – AI for All — HP LIFE – Cybersecurity Awareness

ADDITIONAL

Languages: Bengali, Hindi, English — **Interests:** AI & Agentic Development, Web Development, Software Architecture, Computer Hardware
